PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate with 3 years of professional experience at NTT DATA and hands-on experience in Python, SQL, Pandas, MySQL, Power BI and Streamlit. Experienced in cleaning, validating and analyzing 100,000+ record datasets, performing SQL-based analysis, generating business insights and developing interactive dashboards.

PROFESSIONAL EXPERIENCE

NTT DATA Pvt. Ltd.

Associate | US Healthcare Claims Entry | 3 Years

- Processed healthcare claim information according to defined process and quality guidelines, with strong attention to accuracy and completeness.
- Reviewed claim information and performed validation checks before processing.
- Worked with structured healthcare information in a high-volume, process-driven environment.
- Collaborated with team members to resolve process-related issues and complete assigned work within defined timelines.
- Followed quality standards, process documentation and applicable healthcare process requirements.

EDUCATION

B.Sc. Computer Science

Shiri Kumaran College of Arts and Science

Affiliated to Bharathiar University

2019

82%

TECHNICAL SKILLS

Python & Data Analysis	Python, Pandas, NumPy, EDA, Data Cleaning, Data Validation, Data Transformation
SQL	JOINS, GROUP BY, HAVING, Subqueries, CTEs, Window Functions, CASE WHEN, Date Functions, Aggregations
Database	MySQL, SQLite
BI & Visualization	Power BI, Streamlit, Matplotlib, Seaborn
Statistics	Descriptive Statistics, Probability, Correlation, Statistical Analysis
Tools	Jupyter Notebook, VS Code, Git, GitHub
Excel	Basic / Working Knowledge

KEERTHANA GANESAN

DATA ANALYST

DATA ANALYTICS PROJECTS

GLOBAL SEISMIC TRENDS — Data-Driven Earthquake Insights

Python | SQL | Pandas | MySQL | USGS API | Streamlit

- Collected real-world earthquake data using the USGS API and analyzed a dataset containing 100,000+ records.
- Performed data cleaning, transformation, validation and exploratory data analysis using Python and Pandas.
- Used SQL/MySQL for year-wise analysis and analytical querying of structured earthquake data.
- Applied aggregation, GROUP BY, CASE WHEN and date functions to derive meaningful trends and insights.
- Performed missing-value and duplicate checks during preprocessing and data validation.
- Developed a user-friendly Streamlit dashboard to communicate analytical findings through interactive visualizations.

ONLINE FOOD DELIVERY ANALYSIS

Python | SQL | Pandas | EDA | Power BI

- Analyzed an online food delivery dataset containing 100,000+ records using Python, Pandas and SQL.
- Performed data cleaning, validation, transformation and exploratory data analysis.
- Applied GROUP BY, HAVING, subqueries, CTEs, CASE WHEN, date functions and window functions during analysis.
- Identified customer, order and business patterns and converted findings into actionable business insights.
- Built an interactive Power BI dashboard to present key metrics, trends and analytical findings.

CERTIFICATION

GUVI — Data Science | Course Completed & Certified

Hands-on training in Python, SQL, Pandas, NumPy, Statistics, Data Visualization, Data Cleaning, EDA, Machine Learning, Deep Learning, NLP, Computer Vision, Data Engineering and Deployment.

ADDITIONAL DATA ANALYTICS KNOWLEDGE

Data Quality	Missing-value analysis, duplicate detection, data validation and consistency checks
SQL Analysis	Joins, aggregation, subqueries, CTEs, window functions, conditional and date-based analysis
Dashboarding	Power BI reports and Streamlit interactive dashboards
Analytics Workflow	Data collection → cleaning → validation → analysis → visualization → business insights

CORE STRENGTHS

Data Analysis & Interpretation • Data Cleaning & Validation • SQL-Based Analysis • Exploratory Data Analysis • Business Insight Generation • Dashboard Development • Data Visualization • Analytical Problem Solving • Attention to Data Accuracy
